Reference – Profesional+

18.11.2014

„Profesional+“ contacted us when we had a project waiting to be done for our long time client. Task was to build responsive version of www.kolping.net, a website based on TYPO3 CMS. This CMS wasn't in their list of the things they cover, but they managed to find appropriate associates (Open Kinetix) to finish the job just the way we needed it to be done.

Unfortunately we weren't allowed to open an TYPO3/FTP account for them so working on this project wasn't that easy as it sounds. But with organizational and communicational skills of „Profesional+“ and development knowledge of „Open Kinetix“ developers our client got the perfect solution they were looking for.

Working with „Profesional+“ and their associates network was great and we are looking forward to cooperating with them soon.

Kind regards,

Thorsten Thor
